TRAFFIC ENGINEERING & CONTROL

INDEX TO VOLUME 4

May, 1962—April, 1963

A

AASHO Road Tests, by Sir William Glanville, 672
Accident Risk to Pedestrians on and within 50 yards of Zebra Crossings, by A. M. Mackie, 448
Accidents in Relation to Street Furniture, Single Vehicle, by R. L. Moore, 410
Accidents, London-Birmingham Motorway, by R. F. Newby and H. D. Johnston, 550
Accidents, Pedestrian, by F. Garwood and R. L. Moore, 274
Accidents, Traffic Engineer's Approach to Road, by J. J. Leeming, 277
Achievement and Potential of Traffic Engineering, by Gordon K. Gravelle, 82
Airport and Highway Capacity Analogies. Institute of Transportation & Traffic Engineering, by H. J. Wootton, 671
Airport Traffic Planning, by Frank Beswick, 325
Aluminium Street Furniture, by Denis W. Palmer, 339
American Road Engineers Discuss Lighting Problems, by Granville Berry, 112
Association of Public Lighting Engineers Conference —Light Distributions, by A. W. Christie, 343; Lighting Engineers in Conference, 342
Automatic Parking Control, Coventry Pioneers Central Area, 337
Automatic Traffic Control System, Cologne's, by Richard Mayr, 256
Autoroute du Sud, by L. Gaynard, 285

B

Belgium, Public Lighting in, by A. Boereboom, 45
Bolton, Inner Relief Road, by C. L. Case, 620
British Academy of Forensic Sciences Conference—Pedestrian Accidents, by F. Garwood and R. L. Moore, 274; Traffic Engineer's Approach to Road Accidents, by J. J. Leeming, 274

C

Cambridge Parking Survey, 102
Canadian Report. Toronto Successfully Pioneers Automatic Control of Traffic Signals by General Purpose Electronic Computer, by Sam Cass and Leonard Casciato, 86
Capacity of Urban Intersections. Sixth International Study Week in Traffic Engineering, Salzburg, by F. V. Webster and J. G. Garwood, 396
Case Against Passlamps, by V. J. Jehu, 674
Collecting and Analysing Traffic Data Automatically, by H. J. Wootton, 559
Cologne's Automatic Traffic Control System, by Richard Mayr, 256
Computer Aids Traffic Census, West Riding O-D Survey, by S. Maynard Lovell, 205
Computer System for Traffic Control, Los Angeles Installs America's First, by J. A. Freer, 143
Computer, Toronto Successfully Pioneers Automatic Control of Traffic Signals by General Purpose Electronics, by Sam Cass and Leonard Casciato, 86
Computer, Traffic Survey Analysis by Electronic, by V. E. Miller, 657
Computers in Traffic Planning, Use of Electronic, by Frank Beswick, 404
Concrete Road Characteristics, by D. R. Sharp, 160
Construction and Materials, I.R.F. IVth World Meeting, Madrid, by W. Fisher Cassie, 460
Co-operation in Road Research, I.R.F. IVth World Meeting, Madrid, by E. Goerner, 463
Co-ordinated Transport Planning, by Nigel Seymer, 513
Coventry Pioneers Central Area Automatic Parking Control, 337

D

Determining Merit of Road Improvements, by M. S. Collins, 208
Development of Street Lighting in Great Britain. Public Works and Municipal Congress, by W. Robinson, 469
Driver Behaviour at Double White Lines, by S. J. Older, 260

E

Economic Justification of Roads in Developing Countries. I.R.F. IVth World Meeting, Madrid, by A. R. de Beer, 515
Economics and Finance. I.R.F. IVth World Meeting, Madrid, by M. E. Weinstein, 457
Economics of Road Use, by Dr. Gilbert Walker, 663
Edge Markings for Roads with Flush Shoulders, by A. W. Christie, J. A. Reid, K. S. Rutley and A. E. Walker, 500
Edge of the Carriageway, by G. Charlesworth, 103
Edinburgh and Glasgow, Traffic Surveys in, by J. W. Tyler and J. Miller, 382
Effect of Road Works on Traffic Flow, by Basil G. Combridge, 150
Effect of Traffic Engineering Measures on London's Buses, by J. D. C. Churchill, 505
Emergency Warning Signs for Vehicles, by V. J. Jehu, 92
Estimation of Vehicle Mileage on the Roads of Great Britain, by J. C. Tanner, 556

F

Facilitating Three-Dimensional Road Design, by Richard A. Abbott, 391

G

Glasgow Tries Out the 300-Watt Sodium Integral Discharge Lamp, by Denis R. Colvin, 571
Glasgow's Future Traffic Pattern, Prediction of, by R. Hodgen, 606
Great North Road Improvements, by D. M. MacCarron, 455

H

Hamburg's Traffic Signal Control, by Gerhard Breenkötter, 438
Handicaps to Good Street Lighting, by John R. Brodie, 525
Highways into Motorways, by Kenneth Summerfield, 99
Home Interview, Survey by, by Gerard L. Drake, 26
Hyde Park-Marble Arch Scheme as it Nears Completion, by Richard Edmonds, 324
Hyde Park, Parking under, 464

I

Improving Capacity at an Oslo Roundabout, by Per Ogland, 386
Inner Relief Road, Bolton, by C. L. Case, 620
Institute of Transportation and Traffic Engineering—Airport and Highway Capacity Analogies, by H. J. Wootton, 671
Institution of Highway Engineers—Motorway Lighting, by Granville Berry, 679; Road Networks and

Traffic in Towns, by Dr. R. J. Smeed, 340; Traffic Engineering and Urban Planning, by Maurice Milne, 625
Institution of Municipal Engineers Conference—Planning for Safety and Convenience, by Granville Berry, 212; Role of a County Highway Authority in the Road Programme, by K. Summerfield, 164
International Road Federation IVth World Meeting, Madrid—Construction and Materials, by W. Fisher Cassie, 460; Co-operation in Road Research, by Dr. Ing. E. W. Goerner, 463; Economic Justification of Roads in Developing Countries, by A. R. de Beer, 515; Economics and Finance, by M. E. Weinstein, 457; Keeping the Motorist on Course, by Edmund R. Ricker, 406; Parking Meters in London's West End, by J. Inwood and Hilary Green, 402
Intersections, Capacity of Urban, by F. V. Webster and J. G. Wardrop, 396

K

Keeping the Motorist on Course, I.R.F. IVth World Meeting, Madrid, by Edmund R. Ricker, 406
Kidderminster's O-D Survey, by R. Harris, 138

L

Light Distributions, A.P.L.E. Conference, by A. W. Christie, 343
Lighting Engineer Looks at American Street Lighting, by J. M. Waldram, 109
Lighting Motorways, by Dr. Eberhard von der Trappen, 629
London-Birmingham Motorway Accidents, by R. F. Newby and H. D. Johnson, 550
London Traffic Management, by G. Charlesworth, 96
London's Comprehensive Traffic Study—Survey by Home Interview, by Gerard L. Drake, 26
Los Angeles Installs America's First Computer System for Traffic Control, by J. A. Freer, 143

M

Medway Towns Motorway, 222
Methods for Determining Trip Distribution, by Heinz Schwarz, 612
Motorway Lighting, Institution of Highway Engineers, by Granville Berry, 679

N

New Speed Command Sign is Developed, by Herbert J. Bauer, 263
Newcastle upon Tyne's Flexible Parking Control Scheme, by G. H. Armitage, 198

O

O-D Survey, Kidderminster's, by R. Harris, 138
O-D Survey, West Riding, Computer Aids Traffic Census, by S. Maynard Lovell, 205
O-D Surveys, Practical Sampling for, by G. M. Dickson, 496
One-Way Streets, by J. T. Duff, 518

P

Pandas versus Zebras, by B. L. Allen, 616
Parking Control, Coventry Pioneers Central Area Automatic, 337
Parking Control Scheme, Newcastle upon Tyne's Flexible, by G. H. Armitage, 198
Parking Meters in London's West End, I.R.F. IVth World Meeting, Madrid, by J. Inwood and Hilary Green, 402
Parking Space Demands, by G. R. Falkiner Nuttall, 51
Parking Survey, Cambridge, 102
Parking under Hyde Park, 464
Passlamps, Case against, by V. J. Jehu, 674
Pedestrian Accidents, by F. Garwood and R. L. Moore, 274
Pipelines' Role in Transportation, 332
Planning for Safety and Convenience, Institution of Municipal Engineers Conference, by Granville Berry, 212
Potential Savings from Good Lighting, by Edmond C. Powers, 221
Practical Sampling for O-D Surveys, by G. M. Dickson, 496
Prediction of Glasgow's Future Traffic Pattern, by R. Hodgen, 606
Principles Underlying Urban Road Planning, by Edmond Goelen, 38
Public Lighting by Sodium Vapour Lamps, by M. Cohu, 169
Public Lighting in Belgium, by A. Boereboom, 45
Public Lighting Tangle, by J. T. Grundy, 676
Public Works & Municipal Services Congress—Development of Street Lighting in Great Britain, by W. Robinson, 469

R

Research—Co-operation in Road Research, by E. Goerner, I.R.F. IVth World Meeting, Madrid, 463; Street Lighting Research, 287; Traffic & Safety Research 1961, 270; West German Traffic Engineering Research, 159
Road Design, Typical Traffic Volumes for, by D. J. Reynolds, 267
Road Improvements, Determining Merit of, by M. S. Collins, 208
Road Networks and Traffic in Towns, Institution of Highway Engineers, by Dr. R. J. Smeed, 340
Road Research, Co-operation in, I.R.F. IVth World Meeting, Madrid, by Dr.-Ing. E. Goerner, 463
Road Use, Economics of, by Dr. Gilbert Walker, 663
Road Works on Traffic Flow, Effect of, by Basil G. Combridge, 150
Road Works, Signing and Traffic Control for, by M. Strang, 148
Role of a County Highway Authority in the Road Programme, Institution of Municipal Engineers, by K. Summerfield, 164
Role of Physician and Psychologist in Road Safety, by M. Kobal, 602
Royal Institute of British Architects Conference—Towns and Traffic, by Colin Buchanan, 215

S

Scottish Traffic Engineering Group—Traffic Signal Installation, by F. B. Green, 152
Signing and Traffic Control for Road Works, by M. Strang, 148
Single-Vehicle Accidents in Relation to Street Furniture, Sixth International Study Week in Traffic Engineering, Salzburg, by R. L. Moore, 410
Sixth International Study Week in Traffic Engineering, Salzburg—Capacity of Urban Intersections, by F. V. Webster and J. G. Wardrop, 396; Single-Vehicle Accidents in Relation to Street Furniture, by R. L. Moore, 410
Social Benefit Cost Analysis, by C. D. Foster, 666
Speed Command Sign is Developed, A New, by Herbert J. Bauer, 263
Speed Restrictions, by R. F. Newby, 156
Street Lighting Research, 287
Street Lighting Section—A Lighting Engineer Looks at American Street Lighting, by J. M. Waldram, 109; American Road Engineers Discuss Lighting Problems, by Granville Berry, 112; Autoroute du Sud, by L. Gaynard, 285; Development of Street Lighting in Great Britain, by W. Robinson, 469; Glasgow Tries Out the 300-Watt Sodium Integral Discharge Lamp, by Denis R. Colvin, 571;

Handicaps to Good Street Lighting, by John R. Brodie, 525; Light Distributions, by A. W. Christie, 343; Lighting Engineers in Conference, 342; Lighting Motorways, by Dr. Eberhard von der Trappen, 629; Potential Saving from Good Lighting, by Edmond C. Powers, 221; Public Lighting in Belgium, by A. Boereboom, 45; Public Lighting by Sodium Vapour Lamps, by M. Cohu, 168; Public Lighting Tangle, by J. T. Grundy, 676; Single-Vehicle Accidents in Relation to Street Furniture, by R. L. Moore, 410; Street Lighting Research, 287
Survey by Home Interview, by Gerard L. Drake, 26

T

Tidal Flow Traffic, by S. R. Arnold, 452
Time-Lapse Cine Photography Aids Traffic Studies, by R. D. Worrall, 444
Toronto Successfully Pioneers Automatic Control of Traffic Signals by General Purpose Electronic Computer, by Sam Cass and Leonard Casciato, 86
Towns and Traffic, Royal Institute of British Architects Conference, by Colin Buchanan, 215
Traffic and Safety Research 1961, 270
Traffic Control System, Cologne's Automatic, by Richard Meyr, 256
Traffic Data Automatically, Collecting and Analysing, by H. J. Wootton, 559
Traffic Engineering, Achievement and Potential of, by Gordon K. Gravelle, 82
Traffic Engineering Advances Towards Transportation Engineering, by Louis E. Keefer, 328
Traffic Engineering and Urban Planning, Institution of Highway Engineers, by Maurice Milne, 625
Traffic Engineering Extends its Scope, by Sir William Glanville, 31
Traffic Engineering Group, Institution of Civil Engineers—Edge of the Carriageway, by G. Charlesworth, 103; Highways into Motorways, by Kenneth Summerfield, 99; One-Way Streets, by J. T. Duff, 518; Speed Restrictions, by R. F. Newby, 156; Tidal Flow Traffic, by S. R. Arnold, 452; Traffic in Relation to Town Planning, by C. D. Buchanan, 568; Traffic Signals, by K. L. Duncan, 564
Traffic Engineering Research, West German, 159
Traffic Engineer's Approach to Road Accidents, by J. J. Leeming, 277
Traffic Engineer's Vital Role, by Rt. Hon. Ernest Marples, 24
Traffic Flow, Effect of Road Works on, by Basil G. Combridge, 150
Traffic in Relation to Town Planning, by C. D. Buchanan, 568
Traffic in Towns, Road Networks and, Institution of Highway Engineers, by Dr. R. J. Smeed, 340
Traffic Management, London, by G. Charlesworth, 96
Traffic Priorities Keep America's Buses Moving, by F. J. Lloyd, 510
Traffic Signal Control, Hamburg's, by Gerhard Breenkötter, 438
Traffic Signal Installations, by F. B. Green, 152
Traffic Signals, by K. L. Duncan, 564
Traffic Studies, Time-Lapse Cine Photography Aids, by R. D. Worrall, 444
Traffic Survey Analysis by Electronic Computer, by V. E. Miller, 657
Traffic Surveys in Edinburgh and Glasgow, by J. W. Tyler and J. Miller, 382
Trafficometry, by E. Parker, 318
Training for Traffic Engineering, by Robert White, 393
Training for Traffic Engineering, by J. I. Whitehead, 623
Trip Distribution, Methods for Determining, by Heinz Schwarz, 612
Typical Traffic Volumes for Road Design, by D. J. Reynolds, 267

U

Urban Planning, Traffic Engineering and, by Maurice Milne, 625
Urban Road Planning, Principles Underlying, by Edmond Goelen, 38
Urban Traffic Problems, by Colin Buchanan and G. H. C. Cooper, 34
Use of Electronic Computers in Traffic Planning, by Frank Beswick, 404

V

Vehicle Mileage on the Roads of Great Britain, Estimation of, by J. C. Tanner, 556
Vehicle Operating Costs in 1962, by R. F. F. Dawson, 498
Vehicular Flow and Volume Counts, by R. Millburn, 654
Volume Counts, Vehicular Flow and, by R. Millburn, 654
Votivpark Garage, Vienna, by Fritz Pfeffer, 521

W

West German Traffic Engineering Research, 159
West Riding O-D Survey, Computer Aids Traffic Census, by S. Maynard Lovell, 205

Z

Zebra Crossings, Accident Risk to Pedestrians on and within 50 yards of, by A. M. Mackie, 448
Zebras, Pandas versus, by B. L. Allen, 616
